## DETAILED ACTION

### ***Double Patenting***

A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

Claims 1 – 7 are provisionally rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1 – 5 and 7 - 8 of copending Application No. 10230654. This is a provisional double patenting rejection since the conflicting claims have not in fact been patented.

The Applicant stated in remarks received 7/22/2002 in the related application 10/230654 in response to a 35 U.S.C. 101 provisional Double patenting rejection that:

"Applicant has concurrently filed an Amendment directed to U.S. Patent Application No. 10/613,277, which cancels claims 1 through 7 thereof. A copy of the Amendment is attached as an appendix following page 5 of this paper. Applicant submits that the cancellation of claims 1 through 7 in U.S. Patent Application No. 10/613,277 overcomes the present provisional double patenting rejection under 35 U.S.C. 5 101."

Such an amendment canceling claims 1 – 7 has not been filed in the current application.
